Gua Sha improves circulation along the meridian lines, focusing on the lower back, shoulders, and neck, while acupressure relieves headaches, back pain, sinus issues, migraines, and anxiety.

Followed by a facial, which begins with a deeply relaxing massage. The face's Shiatsu pressure points are stimulated by signature lymph wands which help eliminate toxins and reduce congestion. Finally, a collagen hydra gel face mask is applied to bring intense moisture, to stimulate collagen production and to prepare the skin for LED light therapy. This facial leaves your skin rehydrated, smooth and radiant.
