

TEPPANYAKI

## SAKE

Sake is a traditional Japanese drink made from fermented rice. The foundations of good sake are quality rice, clean water, koji mold and yeast. They are combined and fermented in precise processes that have been refined over centuries.

### Shirataki Uonuma Tanrei Junmai

A light flavored Sake from the famous and traditional area of Uonoma, it combines very well with sushi as well as a variety of lighter style dishes. Shirataki uses natural mineral water from the melted snow of the Echigo Yuzawa Mountains in Niigata Prefecture.

### Shiokawa Fisherman Sokujo Junmai Ginjo

A fruity Sake with light flavor created to accompany seafood. Often compared to a high quality white wine.

### Shiokawa Cowboy Yamahai Junmai-Ginjo Genshu

A soft and refreshing Sake with a slight hint of acidity and a higher alcohol, specially made to accompany Angus and Wagyu beef. Yamahai is a traditional method of making Sake, which creates a more pronounced Umami flavor.

### Tochikura Plum Sake Umeshu

Umeshu – is a Japanese liqueur made from steeping ume plums (while still unripe and green) in Sake and sugar. The plums are harvested in Fukui Prefecture, which is famous for its high quality Benisashi plums. A truly unique balance of sweet and sour. This plum Sake is exclusively exported to Maldives.

### Shirataki Sparkling Jozen Mizuno Gotoshi

A creation of modern times with well integrated bubbles and a slight sweetness and notes of lychee. Jozen Mizuno Gotoshi, meaning "be like water", symbolizes the purity of the Sake.

### Hakutsuru Junmai

This Sake has been brewed using a two hundred and fifty year old traditional method. The result is a well matured, full bodied taste with a delicate earthiness.

### Ginrei Gassan Secchu Jukusei Junmai-Ginjo

A fresh and aromatic Sake with a dry and elegant finish. Meltwater from Mount Gassan, the highest peak of the Three Mountains of Dewa which filters down in a process that takes up to four hundred years, emerging at the foot of the mountain, where the Ginrei Gassan brewery is located. This Sake is matured under snow for six months.
